

Gloves In A Bottle Hand Shielding Lotion

A cost effective solution to problem skin in the clinical environment

PROTECTS AND HEALS DAMAGED AND SENSITIVE SKIN

NHS Supply Chain Order Codes:

MPC	NPC
GIAB 8OZ	MTH85043
GIAB 100ml	MTH85044

Features

- Enhances skin’s barrier by bonding with the outer layer, preventing moisture loss and damage from repetitive hand washing.
- Dries quickly and provides protection for up to 3 hours allowing skin to retain more of its own natural oils – more effective than adding artificial moisture that soon comes off.
- Controls contact dermatitis and prevents allergic reaction to latex and nitrile gloves.
- More cost effective than disposable gloves, so reducing waste.
- Full sensitivity – no loss of dexterity or touch and no greasy residue.
- Independently tested – doesn’t inhibit effectiveness of hand gels.
- Helps to maintain NHS recommended hand hygiene protocols.
- Becomes part of the outer skin layer helping the healing process.

Directions

- Wash hands and dry thoroughly; Apply a pea-sized drop; Work in well and allow to dry completely. Reapply every 3-4 hours for continued protection.
